Chainsaw Safety -- Review Quiz

Name _____

Date _____

Mark a T next to the statement if it is true, or an F if the statement is false.

- 1- Chainsaw safety is a combination of training, knowledge, and experience.
- 2- Any chainsaw can be used to cut down any tree.
- 3- Chainsaw PPE includes Hardhat, chaps, hearing and eye protection, gloves and boots.
- 4- Drop starting a chainsaw is a quick, easy, and safe way to start a chainsaw.
- 5- Never work alone with a chainsaw.
- 6- Taking this safety class qualifies you as an expert chainsaw operator.
- 7- Check your saw before you use it to make sure all safety devices are working properly.
- 8- Wind is never strong enough to effect a falling tree.
- 9- "Kickback" is very dangerous and can happen when the upper part of the saw blade tip comes in contact with another limb or log.
- 10- If you need to stand on a ladder to cut something above your head, hold the saw with one hand and the ladder with the other.

Answer key:
